Cygnus X-1 - Wikipedia

Earth is the third planet from the Sun.It is the only planet known to have life on it. The Earth formed around 4.5 billion years ago. It is one of four rocky planets on the inside of the Solar System.The other three are Mercury, Venus, and Mars.. The large mass of the Sun keeps the Earth in orbit, just as the mass of Earth keeps the moon moving around it. . Earth also turns around in space, so ...

Astronomical symbols - Wikipedia

The most frank and intimate portrait of the Trump White House yet. Stephanie Grisham rose from being a junior press wrangler on the Trump campaign in 2016 to assuming top positions in the administration as White House press secretary and communications director, while at the same time acting as First Lady Melania Trump's communications director and eventually chief of staff.

Allen Astrophysical Quantities 4th Edition

Cygnus X-1 (abbreviated Cyg X-1) is a galactic X-ray source in the constellation Cygnus and was the first such source widely accepted to be a black hole. It was discovered in 1964 during a rocket flight and is one of the strongest X-ray sources seen from Earth, producing a peak X-ray flux density of 2.3 × 10 −23 W m −2 Hz −1 (2.3 × 10 3 Jansky). It remains among the most studied ...
