American Standard Toilets - Build.com

The standard 'rough in' dimension is 12" but there are variations on this. The rough-in is measured from the finished wall to the center line of the waste pipe. Some toilets, such as the Toto Aquia for example, have the option to have a kit (purchased separately) that will accommodate either a 10" or a 14" rough in.

12 Inch Rough In Toilet A 12 inch rough in is the most common measurement in bathrooms. This size allows for the most variety in the shape of the bowl and style of the toilet you purchase. Even though this is the most standard measurement, don't forgo measuring (at least twice) before buying a new toilet.
