Automatic parking is an autonomous car-maneuvering system that moves a vehicle from a traffic lane into a parking spot to perform parallel, perpendicular, or angle parking. The automatic parking system aims to enhance the comfort and safety of driving in constrained environments where much attention and experience is required to steer the car.

Automatic parking - Wikipedia

Automatic Drawing. This chaotic and multifaceted drawing demonstrates Masson's use of the automatic method. The linework is varied, ranging from thick to thin and includes some broken lines that show the unpremeditated nature of the work; he drew as inspiration came to him. The curves of these lines and bodily elements are complex.
