Vibrational Medicine. Vibrational Medicine put simply is the emerging model of energetic healing based on modern scientific insights into the energetic nature of the atom and molecules, as well as the energy systems that make up our bodies. These systems connect us to the entire unified field of consciousness.

...

There may be vibrations in the skin and in photons, but the vibrations themselves are neither healing nor harmful. Vibrational therapists believe that different colors of light have different healing properties. Many also believe that the colors of your aura (another chimera in the energy medicine cabinet) indicate health or sickness.
