Attachment theory in schools

Jennifer Jones looks at the severe challenges facing those with attachment issues and how best we can support these children in the classroom. Ask any adoptive parent or foster carer to name one of the main difficulties they face and I guarantee that most will say it is getting their child's school or nursery to understand the difficulties their children face in the educational environment.

Attachment in the Classroom: The Links Between Children's ...

Attachment issues and mental health have a huge impact on pupils' performance and so an understanding of young people's emotional development is crucial for any teacher. Increasing teachers understanding and skills around emotional development can prevent many long term mental health difficulties in our schools and in our communities.

The overarching aim of introducing attachment theory to the school environment, is to encourage a greater appreciation of the emotional needs of children and young people, which are understood in terms of relationship.

Attachment in the Classroom: The Links Between Children's ...

Attachment has at least two functions pertinent to classrooms. (1) Attachment provides feelings of security, so that children can explore freely. While all children seek to feel secure, attachment helps them balance this need with their innate motivation to explore their environment. (2) Attachment forms the basis for socializing children.
