Clutch Replacement First off I wanted to make this to show everyone that you don't need a huge shop with a lift to do this. Also as some others have mentioned before you do not need to drop the subframe whatsoever. People always ask me if it can be done in their garage and it can. I tried to take pics of every step and be thorough in my descriptions.

Before I even start, I'd like to thank the wonderful Audizine community for helping me through this process. Without a few key responses I'd still be under the Audi breaking stuff. Second most important thing is that calling this guide a DIY is a bit of a stretch, it's more of a list of steps to a goal, not a bolt-by-bolt guide. You should be mechanically competent before starting this procedure.
