†Newer versions of GCC can be installed in certain cases. For further info see section iMote2 Compiler from this wiki. ††Copy jflashmm.tgz to /opt directory, untar it (tar xzf jflashmm.tgz), and make sure it's on your path (see Step 5). If the download link above doesn't work, try the cvs.. TI MSP430 Tools

AVR GCC Tutorial (WinAVR) - 8051projects.net

There is no manual specific to AVR-GCC itself. The GCC and GNU Binutils manuals should take care of the general puzzles of how to invoke the various tools, what command line options are supported, etc. Most questions regarding aspects of GCC which are unique to the AVR port are answered in the avr-libc manual.

GCC - - AVR Libc Reference Manual

If you find yourself stuck on a problem which this document doesn't quite address, you may wish to post a message to the avr-gcc mailing list. Most of the developers of the AVR binutils and gcc ports in addition to the devleopers of avr-libc subscribe to the list, so you will usually be able to get your problem resolved.
