Bank Liquidity Creation - Federal Deposit Insurance ...

We find that bank liquidity creation increased every year and exceeded \$2.8 trillion in 2003. Large banks, multibank holding company members, retail banks, and recently merged banks created the most liquidity. Bank liquidity creation is positively correlated with bank value.

Bank Liquidity Creation And Financial

While bank liquidity creation is important for the macroeconomy, it may also sow the seeds of a financial crisis. Acharya and Naqvi (2012) argue that during uncertain times, deposits flow into banks, who may lower their lending standards and lend more. This increases on-balance sheet liquidity creation and may generate asset price bubbles that heighten the fragility of the banking sector.

Bank Liquidity Creation, Monetary Policy, and Financial Crises

Bank Liquidity Creation and Financial Crises delivers a consistent, logical presentation of bank liquidity creation and addresses questions of research and policy interest that can be easily understood by readers with no advanced or specialized industry knowledge.

Bank Capital, Liquidity Creation and Deposit Insurance ...

By creating liquidity, banks improve the allocation of capital and accelerate economic growth. This column uses evidence from US banks between 1984 and 2006 to evaluate the impact of competition amongst banks on their liquidity creation. It finds that an intensification of competition in the banking industry materially reduces liquidity creation.

Bank Liquidity Creation - Massachusetts Institute of ...

This paper examines how the introduction of deposit insurance influences the relationship between bank capital and liquidity creation. As discussed by Berger and Bouwman (Rev Financ Stud 22:3779-3837, 2009), there are two competing hypotheses on this relationship which can be influenced by the presence of deposit insurance. The introduction of a deposit insurance scheme in an emerging market ...
