...

Bettong, species of the genus Bettongia, are potoroine marsupials once common in Australia. They are important ecological engineers displaced during the colonisation of the continent, and vulnerable to the threatening factors such as altered fire regimes, land clearing, pastoralism and the introduced predatory species such as the fox and cat.

Bettong - Wikipedia

Potoroo is a common name for species of Potorous, a genus of smaller marsupials. They are allied to the Macropodiformes, the suborder of kangaroo, wallaby, and other rat-kangaroo genera. All three extant species are threatened by ecological changes since the English colonisation of Australia, especially the long-footed Potorous longipes (Endangered) and P. gilbertii (Critically Endangered).
