| **Center for ...**

Anthrax is the second threat that requires a major research and development effort to meet civilian needs. A covert attack, which exposes an urban population to an anthrax spore aerosol, is thought by some to be the most likely scenario for a bioterrorism attack.

response capabilities.
Yet relatively little
attention has been
paid to precisely how
the public will respond
to bioterrorism and
how emotional and
behavioral responses
might complicate an
otherwise successful
response.

ideology of terrorism
have removed past
limits on the levels of
violence that terrorists
are willing to use.

Captured Al Qaeda
records, for example,
clearly show that
Islamic extremists
have an interest in
acquiring biological as
well as chemical and
nuclear weapons.
Biological terrorism
therefore poses a
threat that is all too
real.
