Boeing has created updated CBT to accompany the software update. Once approved, it will be accessible to all 737 MAX pilots. This course is designed to provide 737 type-rated pilots with an enhanced understanding of the 737 MAX Speed Trim System, including the MCAS function, associated existing crew procedures and related software changes.

Boeing 737 NG Checklist / Flow- Procedure

In 2005 Boeing took a big step and redesigned the entire Normal Procedures for all their Seattle models. This has created a major upheaval for airlines, training departments and pilots, but the belief is that it will be worth the effort. The following page describes the changes as applicable to the 737 and the reasons behind them. Chris Brady ...

Boeing 737-800 Procedure Checklist - Kennair

Hi guys! Im wondering: Why is that difficult to get real documentation from real operators? Im trying to find a normal checklist for the 737. Sure, i find lots of them, but all made by someone. Most of them have missing items, or use a random flow, others are excessively verbose etc. I want to us...

QRH (Boeing)-Non-Normal checklist use. Certain 737 operator requires that no action be taken by anyone until 600 ft agl on take off. So if engine fire and simultaneous engine failure occur after V1 on runway and second segment rate of climb heavy aircraft is only 400 fpm on one engine, is it really good airmanship to cool one's heels until 600 ft...
