known piston ring problem on C9 engines. But that doesn't mean that your engine doesn't have one. For truck engines, Cat warranty makes us complete an Oil Consumption report. I would ask Mustang if that can be done for you.

The Cat C9 Engine. Facts, Walk Around, Sensor Locations ...

Hallo Cat man, We have some problems with a C9 engine. It runs perfectly when no load but not when putting some load (a turbine) when engine is at 1800 RPM. The RPM drops a lot when under load. When disconnecting the boost pressure sensor (for troubleshooting) the RPM rises to 1400 and smokes a lot.

C9 Industrial Diesel Engines | Cat | Caterpillar

Many Cat C-9 engines cannot maintain constant fuel flow with the fuel tank located 38 feet away from the engine. According to CAT, the tank should be no more the 4 to 6 feet from the engine. Air entering the fuel system is a common problem on coaches built after 2005, some manufacturers used plastic fittings in the lines and they do not last, (a problem that, over time, needs attention.).

Cat 3304 engine problems - bo.nolakeste.it

Caterpillar decided to exit the US highway truck engine business before the 2010 emission standards took effect. While the law suit specifically targets Caterpillar, the Truckinginfo editorial notes that engines from all builders had problems and there may be as many or more issues with Cummins diesels, partly because there are more Cummins engines on the road.
