Michel Chevreul (August 31, 1786 — April 9, 1889), French ...

Art historians still debate whether Chevreul had any real impact on the Impressionist movement as a whole, but it does seem that at least a few of them, notably Pissarro and Seurat, thought they were putting Chevreul's color theory into practice. We do not have Chevreul's De la loi du contraste simultan  des couleurs in the Library, but we ...

Michel Eugène Chevreul - Wikipedia

Could Gestalt theory be applied on colour study? No doubt Michel Eugène Chevreul (Fig. 1) had answered this question in the year 1855, which is 35 years earlier than Christian von Ehrenfels' "On 'Gestalt Qualities'" and 57 years earlier than Max Wertheimer's first finding in Gestalt psychology 'Experimental Studies of the Perception of Movement'.

Chevreul's scientific researches on dyes, color theory, and the chemistry of natural fats all stemmed from his association with Vauquelin at the Museum. Vauquelin introduced Chevreul to the study of organic substances in 1807 by having his student investigate plant dyes. This was Chevreul's first important series of researches.

What Is Simultaneous Contrast in Art?

So, much of Itten's colour theory is nowadays used in brand identity. If you have read Fiona Humberstone's HOW TO STYLE YOUR BRAND, you probably know how passionate she is about colour psychology in branding. "Colour works at a subconscious level, faster than words or images, and creates a gut response.
