"China's Arab Policy Paper", released to coincide with Xi Jinping's first presidential trip to the Middle East, outlined a Chinese vision for the region in which "China is willing to coordinate development strategies with Arab states, put into play each other's advantages and potentials, promote international production capacity cooperation and enhance cooperation."

China And The Middle East
While the world is engaged in an ongoing discussion about the ramifications of the trade war between Washington, DC and Beijing, the economies of the Middle East are shifting away from their longstanding ties with the U.S. toward economically powerful China. This may have long-term implications for economic and political dynamics in the region.

China in the Middle East: The Wary Dragon | RAND
China's conviction appears to be that refocusing the Middle East's attention toward economic development will have a transformative effect in lowering tensions that have become an endemic ...

How China is Unwinding the US' Middle East Supremacy | New ...
Even with all the pompous investments, the Middle East looks like a lost cause for China. However, with such investment, Beijing cannot just leave packing out of the region. In the latest bid to revitalise the relations, Chinese Foreign Minister Wang Yi called for a new forum to diffuse tensions in the Middle East.

How Has China's Role in the Middle East Evolved ...
China's influence is rapidly growing across the Middle East at a time when American commitment is being questioned by regional allies and US politicians alike.

How China won and lost the Middle East
The Middle East, in particular, remains to this day, the indispensable energy source for the economies of both our most formidable competitor in East Asia, China, and our most important ally, Japan, not to mention other important friends and allies in the region.

China is Becoming a Major Player in the Middle East ...
China's ambitions in the Middle East reflect its growing interest and ability to project power and influence and should thus be monitored on those grounds alone.

China and the Middle East: Growing Influence and Divergent ...
Even as it type, the US is reportedly considering deploying another 14,000 troops to the Middle East in a bid to counter Iran. Curiously enough, among the four points of common understanding between China and the attendees at the Middle East Security Forum was an idea to realise a final peace between Palestine and Israel in a just and equal manner.

Less Than the Sum of Its Parts: China's 'Negative ...
China is becoming increasingly active in the Middle East, just as some regional states perceive a declining U.S. commitment to the region. This study examines China's interests in the region and assesses China's economic, political, and security activities in the Middle East to determine whether China has a strategy toward the region and what such a strategy means for the United States.
