A crucial means by which the art remained integrated into society was through the practice of drawing, on which the very definition of the arts of design depended (disegno means 'drawing' as well as 'design' in Italian). On the one hand, it was an amateur pastime pursued by both men and women (Figure 14).

Consequently, interventions can be carried out with respect to both kinds of variables. Similar to Lange's theory, Woodward and Hitchcock use the intended purposes of inquiry of a certain discipline to distinguish between interventions into explicit variables and background variables (cf., e.g., Woodward 2003, 262f).
