Discourse is a generalization of the notion of a conversation to any form of communication. Discourse is a major topic in social theory, with work spanning fields such as sociology, anthropology, continental philosophy, and discourse analysis. Following pioneering work by Michel Foucault, these fields view discourse as a system of thought, knowledge, or communication that

Krashen and other second language acquisition theorists typically stress that language learning comes about through using language communicatively, rather than through practicing language skills. Johnson (1984) and Littlewood (1984) consider an alternative learning theory that they also see as compatible with CLT-a skill-learning model of learning.
