10 Tips for Finding Venture Funding

How VC's Calculate Valuation: We walked through a standard deal where you raise \$1 million at a \$3 million pre-money valuation leading to a \$4 million post money valuation. The math works out that the investor owns 25% of the company post deal (\$1 million invested / \$4 million valuation) and assuming 1 million shares, each share would be valued at \$3 / share (\$3,000,000 pre-money / 1 million ...

Want to Know How VC's Calculate Valuation Differently from ...

Telling Their Stories By bringing together the voices from the first fifty years of the industry's existence, Done Deals highlights two themes: the sharp contrast between the practitioners of early venture capital and those practicing today, and the coastal dividethe difference in venture capital culture and practice between the West Coast and the East Coast.
