Earned Value Management (EVM) started with a trilogy: PV, EV and AC. However, the relationships between three elements are two: $n \times (n-1)/2 = 2$ (as we all recall from high school, well, maybe). The two relationships are, obviously, SPI and CPI, the two great indicators that come from EVM. However, EVM has received strong criticism in recent years.

Earned value management - Wikipedia

Earned Value Project Management-Third Edition is intended to provide guidance useful to project management practitioners who are familiar with EVPM, as well as those who are new to the use of this technique in the management of projects. While there is some information on EVPM available, much of it is focused on large complex projects.
