In order to be successful as a clinical medical assistant, job candidates must have certain personality characteristics. First, medical assistants need to be compassionate while still maintaining a professional distance. The job often involves working with people who are frustrated, anxious, tired, sick, and possibly even dying.

Nursing Assistant Skills List - The Balance Careers

A nursing assistant, sometimes called a nursing aide, provides basic care for patients in hospitals and in nursing facilities. Nursing assistants have a more physical job than medical assistants, often being asked to help patients with basic tasks like bathing, moving or repositioning patients and monitoring patients' vital signs. Unlike medical assistants, nursing assistants work solely on the clinical side of health care.
