## **Gender And Education In China**

Gender and Education in China analyzes the significance, impact and nature of women's public education in China from its beginnings at the turn of the twentieth century. Educational change was an integral aspect of the early twentieth century state-building and modernizing reforms implemented by the Qing dynasty as a means of strengthening the foundations of dynastic rule and reinvigorating China's economy and society to ward off the threat of foreign imperialism.

## **Education in China | Key Facts & Statistics | China Mike**

China is a socialist planned economy which promoted female entitlement, equality, destruction of traditional gender roles, and depopulation before 1978. After embarking on economic reforms in the 1990s and early 2000s, gender inequality in the Chinese labour markets emerged as insignificant economic and social issues. On a global scale, gender inequality in China is relatively slight. In 2014, China ranked 91 out of 187 countries on the United Nations Development Programme's Gender Inequality In

## **Gender Inequality in Education in China: A Meta-Regression ...**

Western feminist theories have different traditions and arguments, and there has been a diversity in feminist thoughts in education which are not oppositional but rather complementary (Dillabough 2006). In China, the socialist slogan of “women can hold half of the sky” established the foundation for women’s participation in education.
