At its most basic, the principle of self-determination can be defined as a community's right to choose its political destiny. This can include choices regarding the exercise of sovereignty and independent external relations (external self-determination) or it can refer to the selection of forms of government (internal self-determination).

Globalization And African Self Determination | Download ...

There are four orders of self-determination that experts refer to. The first is characterized by decolonization whereby a people overcome foreign rule to achieve independence within internationally recognized borders, such as happened throughout Africa in the 1960s, or in India when it won its independence from Britain in 1947.
