Greek Fire - Ancient History Encyclopedia

Greek fire was an incendiary liquid weapon devised by the Byzantine Empire, the surviving, Greek-speaking Eastern half of the Roman Empire with its capital in Constantinople. Also called “sea fire” and “liquid fire” by the Byzantines themselves, it was heated, pressurized, and then delivered via a tube called a siphōn.

Greek fire - The Byzantine ultimate weapon

Greek Fire was the secret weapon of the Eastern Roman Emperors. It is said to have been invented by a Syrian Engineer, one Callinicus, a refugee from Maalbek, in the seventh century (673 AD). The "liquid fire" was hurled on to the ships of their enemies from siphons and burst into flames on contact.

Greek Fire | Definition of Greek Fire by Merriam-Webster

"A Real Life" is a song about questioning where we are. What we are, and where we are going. It's exploring the anger and perhaps the fear of the results and consequences of our actions in a world that we don't realize is outpacing us.

Greek Fire - National Geographic Society

Greek Fire is composed of four young men from the planet Earth, each sharing an extreme passion for their respective instruments. Greek Fire is about purity and expression, poetry and mystery, the beauty of the journey. Faith in something greater, a quest into the unknown, a connection with the fire within.
