Stanford CS Curriculum 2021 | Hacker News

Making neural nets uncool again. That test doesn't actually pass, since getnames in the last line includes the parent directory, but it's an easy enough fix from there. Copilot even cleverly decided to use the write_text function I created earlier, which is something I wasn't expecting.. You can even use Copilot to write prose.

Manning | Grokking Algorithms

Summary Grokking Algorithms is a fully illustrated, friendly guide that teaches you how to apply common algorithms to the practical problems you face every day as a programmer. You'll start with sorting and searching and, as you build up your skills in thinking algorithmically, you'll tackle more complex concerns such as data compression and artificial intelligence.

Free-Algorithm-Books/Grokking Algorithms - An Illustrated ...

Introduction to Algorithms, the 'bible' of the field, is a comprehensive textbook covering the full spectrum of modern algorithms: from the fastest algorithms and data structures to polynomial-time algorithms for seemingly intractable problems, from classical algorithms in graph theory to special algorithms for string matching, computational ...
