## **The HCG Diet: What Is It and Does It Work? | Everyday Health**

This diet is associated with dramatic weight loss, up to a pound a day. But the problem, up until now, was that no doctor could explain how it worked, and critics claimed the caloric restrictions are responsible for the weight loss and not the HCG hormone. Critics of the diet have also maintained that the weight lost can't be kept off.

## **HCG Diet | HCG Diet Information | Your HCG Diet**

The Hcg Diet is a whole food cleanse, a high protein, green carbohydrate, high vegetable approach to weight loss and healthy eating. HCG Diet Dictionary: Loading (Phase 1): 2-3 days of eating high fat, high sugar, and high calorie foods, usually preceding HCG treatment or in the first few days of taking injections/drops. Melba Toast: Dry, crispy and thinly sliced toast made of wheat flour, salt, yeast, molasses and vinegar.

## **About HCG Diet - HCG Diet**

The HCG diet involves caloric restrictions and regular injections of the HCG hormone. According to proponents of the diet, the HCG hormone, which occurs naturally in pregnant women, helps the body lose weight quickly and efficiently. When the hormone enters your body, it can suppress hunger, reduce muscle loss, and fix other hormone imbalances.
