There are so many things missing, I could go on forever, I wish I could give this book a negative score, but I can't do so. I'm currently in Physics at my school, and I like to study Physics in my spare time. Serway is a very good author of the college books, that I have, but this one does not cut it for a full understanding of Physics.

'Conceptual physics', of course, is fine as far as it goes and one needs to grasp principles before getting into the more difficult problems. But ultimately physics is a quantitative science and the properly prepared HS student needs to meet that objective. This textbook fulfills that goal admirably.
