The Investor Revolution - Harvard Business Review

Public relations (PR) is the practice of managing and disseminating information from an individual or an organization (such as a business, government agency, or a nonprofit organization) to the public in order to affect their public perception. Public relations (PR) and publicity differ in that PR is controlled internally, whereas publicity is not controlled and contributed by external parties.

Public relations - Wikipedia

Although the term "public relations" was not yet developed, academics like James E. Grunig and Scott Cutlip identified early forms of public influence and communications management in ancient civilizations.: 41 According to Edward Bernays, one of the pioneers of PR, "The three main elements of public relations are practically as old as society: informing people, persuading people, or ...

The art and science of testing. To start, we need to go right to the beginning of the build. There`s an art to testing, especially in consulting with the other stakeholders for thorough discussions on how to blend their different visions into a unified reality. This process is known as "validation" - ensuring the right product is built.

Rio Tinto commits funding for Jadar lithium project

Research has shown that children with special health care needs (SHCN) are often accompanied by substantial unmet health care needs (UHCNs). To address the UHCNs of children and their families, the concept of a medical home (MH) has emerged as a means of providing a family-centered and community-based health care service delivery model.
