9. With over 30 questions, it covers the fundamental topics of science. So, if you are interested in having a practice session, then take this quiz right now.

## **Gas exchange in the lungs - Respiration - KS3 Biology ...**

The early Periodic Table Newlands, and then Mendeleev, attempted to classify the elements by arranging them in order of their atomic weights. The list can be arranged in a table so that elements with similar properties are in columns, known as groups. The table is called a periodic table because similar properties occur at regular intervals.
