FMF PowerCore 4 Slip-On Exhaust KTM 400 / 450 / 520 / 525 ...
Only difference between 450exc and 520/525 models is that 525/520 sx has conical (stronger) valve springs. Some year also has different cam, but that is rare. Sx crank is slightly ligher. All parts are ingerchangeable. SX has no stator for lightning, needs flywheel and stator. SX also has bigger carb and no tps sensor and different ecu. You will not want that for street use, very uncomfortable, feels more powerful but is not really.
