Design Trust for Public Space

When trying to launch your application from your web browser you may get prompted to save the .ica file and then be prompted on how to open this type of file. This is caused by either changing the association between the .ica file and Citrix or launching Design Manager before the receiver is downloaded and installed.

About Us — Design Trust for Public Space

Design Trust played a major role in building support for the Intro. 1109 Pedestrian Plaza Legislation. The new bill gives the NYC Department of Transportation the authority to manage and regulate pedestrian plazas throughout the city, without banning any category of activity.

The bridge consists of a continuous box-girder structure with nine spans ranging from 175 to 330 feet in length. The bridge was launched from both directions and joined at the center of the 330-foot span. The bridge plans and specifications called for the box-girder sections to be erected using incremental launching.
