Howard Kahane received a master's degree from the University of California at Los Angeles and a Ph.D. from the University of Pennsylvania. He was a professor of philosophy at Bernard M. Baruch college in New York and is considered one of the founders of the critical-thinking movement, an approach to logic that makes it less abstract and more practical as a tool for analyzing political and

...

Modern Logic - Philosophy Pages

Philosophy of logic, the study, from a philosophical perspective, of the nature and types of logic, including problems in the field and the relation of logic to mathematics and other disciplines.. The term logic comes from the Greek word logos.The variety of senses that logos possesses may suggest the difficulties to be encountered in characterizing the nature and scope of logic.

Logic and Philosophy: A Modern Introduction: Hausman, Alan ...

Logic and Mathematics By the turn of the twentieth century, philosophers had begun to devote careful attention to the foundations of logical and mathematical systems. For two millenia Aristotelian logic —with only minor scholastic modifications—had seemed a complete and final explanation of human reasoning.

Modern Logic in Contemporary Philosophy - Philosophy

He was a professor of philosophy at Bernard M. Baruch college in New York and is considered one of the founders of the critical-thinking movement, an approach to logic that makes it less abstract and more practical as a tool for analyzing political and social issues. Paul Tidman received his Ph.D. in philosophy from the University of Notre Dame.

The Best Books on Logic | Five Books Expert Recommendations

Typically, a logic consists of a formal or informal language together with a deductive system and/or a model-theoretic semantics. The language has components that correspond to a part of a natural language like English or Greek. The deductive system is to capture, codify, or simply record arguments that are valid for the given language, and the semantics is to capture, codify, or record the ...

6. "Modern Logic" | Logic Philosophy Spirituality

Logic began independently in ancient India and continued to develop to early modern times without any known influence from Greek logic. Medhatithi Gautama (c. 6th century BC) founded the anviksiki school of logic. The Mahabharata (12.173.45), around the 5th century BC, refers to the anviksiki and tarka schools of logic. Pāṇini (c. 5th century BC) developed a form of logic (to which Boolean ...
