Ecosystem services are the many and varied benefits to humans provided by the natural environment and from healthy ecosystems.Such ecosystems include, for example, agroecosystems, forest ecosystems, grassland ecosystems and aquatic ecosystems.These ecosystems, functioning in healthy relationship, offer such things like natural pollination of crops, clean air, extreme weather mitigation, and ...

### Oyster Culture - Marine Aquaculture

Oceans, seas and coastal areas form an integrated and essential component of the Earth's ecosystem and are critical to sustainable development. They cover more than two-thirds of the earth's surface and contain 97% of the planet's water. Oceans contribute to poverty eradication by creating sustainable livelihoods and decent work. Over three billion people depend on marine and coastal ...

### Recreational fishing - Department of Fisheries

The preseason forecast for the Kenai River sockeye salmon return was 2.33 million fish. With this inseason assessment, management of the Upper Subdistrict set gillnet and Central District drift gillnet commercial fisheries will change and fall under the regulations for run sizes less than 2.3 million Kenai River sockeye salmon.

### Marine Mammal Protection Act | NOAA Fisheries

Fishery can mean either the enterprise of raising or harvesting fish and other aquatic life; or more commonly, the site where such enterprise takes place (a.k.a. fishing ground). Commercial fisheries include wild fisheries and fish farms, both in freshwater bodies (about 10% of all catch) and the oceans (about 90%). About 500 million people worldwide are economically dependent on fisheries ...

### What does the MSC label mean | Marine Stewardship Council

Oyster culture is one of the most prominent forms of marine aquaculture in the U.S. In 2011 31 million pounds of oysters were harvestede with a dockside value of approximately \$135 million (National Marine Fisheries Service).That is probably a low estimate of the overall value of the oyster because it does account for the ecological value of the fish species that use oyster reefs as a food ...

### Laws & Policies | NOAA Fisheries

(1) The Secretary of Commerce, in consultation with the Secretary of the Interior, the Marine Mammal Commission, the State of Alaska, and Alaska Native organizations, shall, not later than 180 days after the date of enactment of the Marine Mammal Protection Act Amendments of 1994 [October 27, 1994], undertake a scientific research program to ...
