Human mission to Mars - Wikipedia

K9, occasionally written K-9, is the name of several fictional robotic canines (dogs, the name being a pun on the pronunciation of "canine") in the long-running British science fiction television series Doctor Who, first appearing in 1977. K9 has also been a central character in three of the series television spin-offs: the one-off K-9 and Company (1981), The Sarah Jane Adventures (2007–2011 ...

Want to Colonize Mars? Aerogel Could Help

The idea of sending humans to Mars has been the subject of aerospace engineering and scientific studies since the late 1940s as part of the broader exploration of Mars. Some have also considered exploring the Martian moons of Phobos and Deimos. Long-term proposals have included sending settlers and terraforming the planet. Proposals for human missions to Mars came from e.g. NASA, Russia, Boeing ...

Martian Outpost The Challenges Of

Figure 1: Depiction of a concept habitat of a Martian outpost. The outpost shows complexity of shapes and materials that must be constructed using ISRU. Additively manufactured sub-components can speed up time and reduce energy for assembly procedure that would involve work by astronautss and robots. 2. Materials and Methods 2.1. Regolith Simulant
