Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

In the Mercury Optimax vs. Evinrude debate, Evinrude makes less noise. However, if you don't mind the noise of a Mercury Optimax, or maybe even like it, there is no reason to consider volume levels much. Two-Stroke or Four-Stroke . A common test to compare and contrast different engines is the stroke test.

## **Mercury OptiMax Outboard : 75 hp - 90 hp - 115 hp - 150 hp ...**

We have a 2005 Mercury Optimax 115HP 2 cycle outboard motor. The engine beeps 4 times, stops and later beeps again. It actually beeps when the key is turned on and the motor is not running. When in the water the boat will slow down and my husband lets off the throttle and waits and then it's okay again for a little while then does it again.

A synthetic blend 2-Cycle engine oil specifically formulated and developed to meet the needs of: OptiMax and Direct Fuel Injected (DFI) 2-cycle outboard engines. - Provides the maximum protection for OptiMax and DFI engines even under the most extreme operating conditions.

## **Outboard Motors | Mercury Marine**

Like all other OptiMax engines, the new 115 severs ties with past two-stroke lubrication systems. Rather than the conventional approach to internal lubrication - mixing gas and oil to smear every engine component with a lubricating film - Mercury engineers installed an ECM-controlled oil pump that oils connecting rods directly.
