Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

Outline of anthropology - Wikipedia

Anthropology is the study of humans and their societies in the past and present. Research in the Department of Anthropology spans from the emergence of our earliest ancestors to the ways communities sustain their cultures in today's globalized societies.

Why anthropology matters - EASA

Ethnographic fieldwork, carried out according to the method of long-term participant-observation, is what defines social anthropology. The method is inductive and open-ended. As such, the method directs the anthropologist to study that which is of significance to the community studied rather than test a number of hypotheses formulated in advance of the fieldwork. Anthropology is a comparative ...
