Pediatric Cardiology. | Annals of Internal Medicine ...

The fourth edition of Nadas' Pediatric Cardiology, edited by Donald Fyler, is an obvious work of love. An aging pediatric cardiologist like myself remembers "Nadas and Fyler" often used almost as a single proper noun, based on these physicians' clinical experience and publications.

Nadas' Pediatric Cardiology | JAMA Pediatrics | JAMA Network

Cardiac muscle tissue has autorhythmicity, the unique ability to initiate a cardiac action potential at a fixed rate – spreading the

impulse rapidly from cell to cell to trigger the contraction of the entire heart. This autorhythmicity is still modulated by the endocrine and nervous systems.. There are two types of cardiac muscle cell: cardiomyocytes which have the ability to contract easily ...
