Lymphomas that do  
not start in white blood  
cells are called non-  
Hodgkin lymphoma.

Lymphoma is a general  
term for cancers that  
develop in the  
lymphatic system (the  
tissues and organs that  
produce, store and  
carry white blood  
cells). Lymphomas that  
do not start in white  
blood cells are called  
non-Hodgkin  
lymphoma.
