Unfortunately, the disparity between the number of patients who require organ transplantation and the number of donor organs continues to grow (Figure 1).

“Since 1988, the organ transplant waiting list has quadrupled with nearly 61,000 men, women, and children waiting for a transplant today” (3).

- Organ transplantation: In 1967 surgery arrived at a climax that made the whole world aware of its medicosurgical responsibilities when South African surgeon Christiaan Barnard transplanted the first human heart. Reaction, both medical and lay, contained more than an element of hysteria. Yet, in 1964 James Hardy of the University of Mississippi
