Mechanical Waves: Quiz & Worksheet for Kids | Study.com

The wave is the transfer of your hand's kinetic energy across the rope! Waves like this one—which require a medium to carry them—are known as mechanical waves. On the other hand, electromagnetic waves (such as visible light) do not need a medium to travel and therefore can travel in empty space.

worksheet answer key and waves and electromagnetic spectrum worksheet answer key are three of main things we want to show you based on the gallery title.

Waves Practice Problems Online | Brilliant

A mechanical wave is the type of wave that needs a medium to be transmitted, as waves of this type do not travel through a vacuum. The quiz below is designed to test your basic understanding of mechanical waves. It will take less than a minute and is a true or false question. Give it a shot and see if you need more reading.

Section 17.1 17.1 Mechanical Waves
