This chapter discusses the overarching principles of tax policy that have traditionally guided the development of tax systems. It then provides an overview of the principles underlying corporate income tax, focusing primarily on the taxation of cross-border income both under domestic laws and in the context of tax treaties. Finally, it

Tax Law & Litigation: Principles of Natural Justice ...

International taxation is the study or determination of tax on a person or business subject to the tax laws of different countries, or the international aspects of an individual country's tax laws as the case may be. Governments usually limit the scope of their income taxation in some manner territorially or provide for offsets to taxation relating to extraterritorial income. The manner of limitation generally takes the form of a territorial, residence-based, or exclusionary system. Some governm
