HSC Physics Notes for HSC 2020-21. Physics is “knowledge, the science of nature”, from physics, i.e. “nature” is a part of natural philosophy and natural science that involves the study of matter and its motion through space and time, along with related concepts such as energy and force.

Qualitative chemical analysis | chemistry | Britannica

Classical qualitative inorganic analysis is a method of analytical chemistry which seeks to find the elemental composition of inorganic compounds. It is mainly focused on detecting ions in an aqueous solution, therefore materials in other forms may need to be brought to this state before using standard methods.
