Imperial period. Concrete structures and marble buildings stood side by side in Rome, demonstrating that the Romans appreciated the architectural history of the Mediterranean just as much as they did their own innovation. Ultimately, Roman architecture is overwhelmingly a success story of experimentation and the desire to achieve something new.

Roman Imperial Architecture | Yale University Press

The history of Roman Imperial architecture is one of the interaction of two dominant themes-in Rome itself the emergence of a new architecture based on the use of a revolutionary new material, Roman concrete, and in the provinces the development of interrelated but distinctive Romano-provincial schools.
