Christian Livingstone demonstrates how to rebuild/refurbish the lawn maintenance industry's revolutionary friction-drive transaxle system on a popular series of Dixon's zero-turn riding lawn mowers.

## **www.husqvarna.com**

According to the Dixon-ZTR website, the company has been utilizing zero turn technology on its mowers since 1974. Cones are a part of the transmission assembly and help to control torque and steering. Adjusting the cones, specifically, adjusting the distance of the cones from the discs, can create more precise steering control of the mower.

Have a Dixon SPDZTR 48 year 2011 or 2012. Lately having issues with the steering. No power on grades especially when having to turn. Makes a "loud humming" noise. Seems ok when I start mowing and gets worse. Owners manual shows no help other than air in line may need purging. Can find no tranny oil tank or filter. Belt seems ok, albit it hard to reach, and seems tight.
