The Origin of the Names of the Continents

First was the expansion and growth of civilization into new geographic areas across Asia, Africa, Europe, Mesoamerica, and western South America. However, as noted by world historian Peter N. Stearns, there were no common global political trends during the post-classical period, rather it was a period of loosely organized states and other developments, but no common political patterns emerged.

South Africa VS Asia: Returning Home After 3 Years Experience?

Southern Africa - Southern Africa - Independence and decolonization in Southern Africa: After the war the imperial powers were under strong international pressure to decolonize. In Southern Africa, however, the transfer of power to an African majority was greatly complicated by the presence of entrenched white settlers. After an initial phase from 1945 to about 1958, in which white power ...

List of conflicts in Asia - Wikipedia

After 1500, world regions—such as West Africa, East Asia, and South America—fused together into one global trade system. For the first time in history, each region of the world now interacted with the others. For example, enslaved African labor was used in South American plantations to sell cheap sugar to Europe.

Decolonization of Asia and Africa, 1945-1960

The decolonization of Asia was the gradual growth of independence movements in Asia, leading ultimately to the retreat of foreign powers and the creation of a number of nation-states in the region. A number of events were catalysts for this shift, most importantly the Second World War. Prior to World War II, some countries (e.g., the Philippines in 1898) had already proclaimed independence.

Early Modern Empires (1500-1800)

Rather, it was just a small region, like "Asia", referring to a portion of present day Turkey, part of Thrace. Like most, I've known that the Americas (North and South) were named after Amerigo Vespucci since my early education. However, the story behind why this is the case is somewhat more interesting and quite a bit less well known.

A Short History of Africa

Decolonization is a political process. In extreme circumstances, there is a war of independence. More often, there is a dynamic cycle where negotiations fail, minor disturbances ensue resulting in suppression by the police and military forces, escalating into more violent revolts that lead to further negotiations until independence is granted. In rare cases, the actions of the pro-independence ...
