Stallcup's Electrical Design Book makes a good attempt to navigate learners through the complex web of the National Electrical Code (NEC), but ends up confusing things even more. The book is filled with inconsistencies and errors. It also does a horrible job of explaining the key points of electrical design.

Stallcups One And Two Family Dwellings 2008 Edition [EBOOK]

This is where Stallcup's Electrical Design really shines. Stallcup's goes through the step by step process of solving the questions, not just finding answers in the code book. While the cheaper guide helped me learn the code book, Stallcup's helped me earn my electrical license, definitely a wise investment.
