District programs, activities, and practices shall be free from discrimination based on race, color, ancestry, national origin, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity or expression, or genetic information; the perception of one or more of such characteristics; or association with a ...

Ap Stats Modeling The World Chapter 17 Answers

Work Step by Step. The responses are either Democrat, Republic, Independent, Other, or no response. Each of these represents a category that a person can fall in. These are not numbers that represent values with units so they will not be quantitative. Because each response represents a category of people, the response variable is a categorical variable.
