In personality psychology, locus of control is the degree to which people believe that they have control over the outcome of events in their lives, as opposed to external forces beyond their control. Understanding of the concept was developed by Julian B. Rotter in 1954, and has since become an aspect of personality studies. A person's "locus" (plural "loci", Latin for "place" or "location" ...

Locus of control - Wikipedia

Economic anthropology is a field that attempts to explain human economic behavior in its widest historic, geographic and cultural scope. It is practiced by anthropologists and has a complex relationship with the discipline of economics, of which it is highly critical. Its origins as a sub-field of anthropology began with work by the Polish founder of anthropology Bronisław Malinowski and the ...
