INTRODUCTION. In a previous article in this series,[1] we discussed linear regression analysis which estimates the relationship of an outcome (dependent) variable on a continuous scale with continuous predictor (independent) variables.In this article, we look at logistic regression, which examines the relationship of a binary (or dichotomous) outcome (e.g., alive/dead, success/failure, yes/no ...

Common pitfalls in statistical analysis: Logistic regression
Carcass are an English extreme metal band from Liverpool that was formed in 1986. The band have gone through several line-up changes, leaving guitarist Bill Steer and bassist and vocalist Jeff Walker as the only constant members. They broke up in 1996, but reformed in 2007 without one of its original members, drummer Ken Owen, due to health reasons. To date, the band have released six studio ...
