This is done by fitting a analytical transit light curve to the data using the transit equation of $\int \text{cite}\{\text{mandel02}\}$. A transiting exoplanet which has an impact parameter or b , will have a shorter transit duration, a shallower transit depth and longer ingress and egress times. This is seen in Fig. 6 where the effects of varying from b to 1 is shown.

Jain literature refers to the literature of the Jain religion.It is a vast and ancient literary tradition, which was initially transmitted orally. The oldest surviving material is contained in the canonical Jain Agamas, which are written in Ardhamagadhi, a Prakrit (Middle-Indo Aryan) language.Various commentaries were written on these canonical texts by later Jain monks.

Directed design of new photocatalysts remains a challenging task in materials chemistry. One approach in metal oxides is to engineer the bulk electronic structure to achieve enhanced visible-light absorption and favorable hole transport through the incorporation of heavy main group cations with lone pair electron configurations (Sn²⁺, Pb²⁺, Bi³⁺). Here, we exemplify this strategy with layered ...
