Scheme contacts - The Portable Antiquities Scheme

The first cases of plague among the 100,000 population of London occurred in early October, with John de Foxton, the deputy coroner, among them. Despite this, the king was frequently in the capital and at nearby Westminster (which had remained plague-free) during October, November and December.

How Violent Were The Middle Ages? - HistoryExtra

Medieval society never recovered from the results of the plague. So many people had died that there were serious labor shortages all over Europe. This led workers to demand higher wages, but landlords refused those demands. By the end of the 1300s peasant revolts broke out in England, France, Belgium and Italy.

Medieval literature is full of descriptions of torture, but close readings of these texts show that torturers were demonised. ... Henry Courtenay, the victim's godson, later subjected the corpse to a grotesque coroner's inquest. This was the culmination of a private vendetta, but also a deliberate affront to royal justice. Advertisement.

Coroner vs Medical Examiner - Difference

Once again, the coroner's roll gave some insight. An unnatural number of homicides happened on Sunday evenings, a time when most lower-class men were in taverns. It is likely that drunken arguments happened frequently, with fatal results. ... This medieval practice was widespread and used both domestic and wild cats. El Bordellet was a ...

The Black Death: Bubonic Plague - Medieval Resources

Women in the Middle Ages occupied a number of different social roles. During the Middle Ages, a period of European history lasting from around the 5th century to the 15th century, society was patriarchal and this type of patriarchal control was assumed: ideally, women were to fall under male control regardless of class. Women held the positions of wife, mother, peasant, artisan, and nun, as ...

Historical Essays: Childhood in Medieval England

The coroner system originated in medieval England but has been espoused in the U.S. since the 1600s. The majority of the states in the U.S. now rely on the coroner system. The medical examiner system, on the other hand, started in the early 1900s, when people realized that qualified physicians are needed to determine the cause of death.

Medieval law | Britannica

Fatal accidents were taken seriously by the authorities, and involved a coroner's inquest, like sudden deaths of adults. Corporal punishment was in use throughout society and probably also in homes, although social commentators criticised parents for indulgence towards children rather than for harsh discipline. ...
