BIOL 241 - Principles of  
Microbiology. 3-2-4 .  
Credit Hours: 4.

Bacteria and viruses  
are studied. An  
emphasis is placed on  
the identification,  
metabolism,  
physiology and  
genetics of bacteria  
and viruses in lecture  
and laboratory  
experiences. Clinical  
aspects of selected  
microbes are  
discussed.

Immunology is the

# Access Free The Principles Of

Bacteriology. A study of immunity.

Vaccines and interferons are being investigated to prevent and cure viral diseases.

The use of immunology to identify some bacteria according to serotypes (variants within a species) was proposed by Rebecca Lancefield in 1933.
